

# Stainless Steel Reactor for Scale Up and Small-scale Production

# **SR500-EVP Series**

- > Chemical Reaction
- > Evaporation, Precipitation, Crystallization
- > Filtration, Washing
- > Plant Extraction
- > Process Scale-up

### **Core Features**

#### **Scalable Platform**

- > Multi-scale Capacity: 5L, 10L, 20L, 30L, 50L, 100L, 150L and 200L (or larger).
- > **Modular Versatility:** One apparatus enables multiple processes across R&D, pilot, and production scales.
- > **Compact & Mobile:** Space-saving stainless frame on wheels for easy repositioning.

#### **Ready-to-Run Systems**

- > Complete Integrated Package: Integrates the agitation motor, jacketed vessel, efficient stirrer, LED lighting, bottom discharge valve, and functional lid, larger condenser with collection tank, etc.
- > **Plug & Play:** Fully assembled and skid-mounted for quick commissioning.
- > **Customizable options:** Tailored tank structures, control systems, automation, and safety certifications available.

4-Blade Pitched Impeller

#### **Advanced Engineering**

- > **Corrosion-Resistant Materials:** SUS304, PTFE, FFKM, and PPL for demanding chemistry.
- > **Uniform Heating:** Baffled thermal jacket ensures precise and consistent temperature control.
- > **Enhanced Mechanical Sealing:** Reliable performance for long-term operation.

#### **Quality Assurance**

- > Turnkey Solution: From design to delivery, we handle everything.
- > Certified & Compliant: CE certified; additional standards upon request.
- > **Built to Last:** Rugged design suitable for laboratory and industrial environments.

### **Explore the Details**

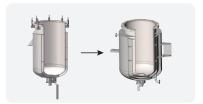

### **Upgrades**

Side Observation Window

Insulation Layer

Surface Treatment: Mirror Polishing, Electrolysis, Passivation, etc.

Material: 316L, 2205

Weighing Module [Mettler Toledo]

Liquid Level Detection

Online Detection and Control

Certification (CSA/ATEX/IECEx/UL)

PLC + Color Touch Screen Control System

Pneumatic Motor

**Bursting Disc** 

Magnetic Drive

Tank Cover Lifting

### **Customized Cases**

50L Jacketed Reactor with Evaporation, Filtration and Liquid Collection Tank

Jacketed Reactor with Ribbon Spiral Belt Impeller

50L Reactor with Larger Condenser and Collection Tank

30L Reactor with Customized Lid Layout, Liquid Detection and Sight Glass

50L Reactor with Filtration & Collection for Recrystallization

10L Reactor with Customizable OD:H Ratios & Interchangeable

10L Reactor with Pneumatic Lifting and Weighing System

50L Reactor with Integrated CIP, Filtration, for Recrystallization Processes, including Post-crystallization Solid-liquid Separation and Collection.

50L Jacketed Reactor - High Temperature with Integrated Vessel Weighing system, Inline Monitoring Electrodes, and PLC control

### Scalable Solutions for Pilot & Production

Stainless Steel Reactor System [Up to 20m³]

For industrial-scale production requirements, we engineer and manufacture heavy-duty stainless steel reactor systems with capacities up to 20m³. These robust systems are designed for demanding applications in both pilot plants and full-scale manufacturing.

Built to the same exacting standards as our laboratory-scale reactors, these industrial models incorporate high-performance features such as premium corrosion-resistant alloys, modular components for flexible functionality, and highly efficient temperature control systems.

We provide on-site installation and commissioning services to ensure a seamless and reliable scale-up process from R&D to production. Backed by our comprehensive custom engineering support, we work with you to tailor a system to your specific technical and capacity requirements. Contact us to discuss your project and receive a customized solution.

### Related Equipment

### **Cooling Circulator**

- DL series: -20/-30/-40°C ~ RT DLH series: -120/-80/-40/-30/-20°C ~ RT

#### **Heating Cirulator**

• UC series: RT ~ 200/300°C

### **Heating Cooling Cirulator**

- HR-F series: -25°C ~ 200°C
- HRV series: -100°C ~ 100°C, -80°C ~ 200°C, -40°C ~ 200°C, -40°C ~ 250°C

#### **Vacuum Pump**
